

**Oledcomm wins the “Business France / Orange Award” @ MWC2017  
for its latest B2B innovations**

*Barcelona, February 27th, 2017* – Oledcomm, global leader in LiFi technology, is distinguished with 3 other companies as the most innovative startup exhibiting on the French Tech Pavilion. It has been selected by experts' jury including Business France, Bpifrance, IDATE, Orange, Smart-City Mag and Syntec Numérique.

The "Business France / Orange Award - B2B Solution category" will be handed over to Oledcomm by Orange during the cocktail organized by Business France on the French Tech Pavilion, Hall 5, on Monday February 27<sup>th</sup> at 5:30 pm.

On this occasion, Oledcomm reveals three major technological innovations for IoT and wireless communication market:

The GEOLiFi Software Development Kit with access to IoT platform,

The very first industrial production of bidirectional LiFiNET module turning lighting into a connection terminal to Internet through the light,

GEOLiFi, the accurate indoor positioning system based on the most innovative light detection by the camera of latest smartphones.

Mobile World Congress 2017 is the major worldwide event for the mobile industry. For the fourth consecutive year Oledcomm will be present on stand 5B41-18 at the French Tech Pavilion organized by Business France in partnership with Systematic Paris Region cluster.

**About Oledcomm**

*Founded in 2012 by Professor Suat Töpsü, co-inventor of the LiFi technology, Oledcomm is a French company and a global leader in bidirectional data solutions via visible light (LiFi).*

*Based in Velizy-Villacoublay (France) and León (Mexico), Oledcomm designs complete LiFi operating solutions, in particular routers, photo-receptors (dongles and bridges), and software platforms.*

*Oledcomm's LiFi solutions are used by many major account clients, including RATP, Orange, Aéroport de Paris, Airbus, EADS, EDF, Thalès, France Télévision, SNCF, Peugeot, Leclerc, and the Centre hospitalier of Perpignan.*
